PROFESSIONAL SUMMARY

Software Engineer with nearly 2 years of hands-on experience in Web Development (JavaScript ecosystem). Possess a solid foundation in building scalable applications with React, Next.js, Vue, Nuxt and Node.js. Passionate about clean code, performance optimization, and currently seeking a dynamic and challenging environment to contribute to product growth.

WORK HISTORY

Frontend Developer
Oct 2024 – Aug 2025

Freelance • Japan

- **Scout TechFul**: Architected a high-performance, SEO-centric frontend for a Japanese job recruitment platform using **Nuxt 3**. Achieved perfect Core Web Vitals scores and improved search engine indexing speed.
- Engineered a type-safe, scalable state management system using **Pinia** and **TypeScript**, reducing runtime errors and simplifying complex user flows.

Full-stack Developer
Sep 2024 – Feb 2025

Napa Global • Full-time

- **Internal ERP • Full-stack:** Spearheaded the development of key ERP modules (HR, Booking), utilizing **Ant Design** for consistent UI and **NestJS** microservices. Optimized **PostgreSQL** query performance and implemented caching, reducing API response times by ~30%.

Full-stack Developer
Apr 2023 – Oct 2023

Freelance • US

Trainix (EdTech): Designed and deployed a modular transportation training platform using **Vue.js & Nest.js**, enabling dynamic course content delivery and real-time student tracking suitable for the US market.

Frontend Intern
Jun 2022 – Aug 2022

FPT Software

Contributed to the development of a digital financial information platform for Korean clients. - Implemented UI features and resolved technical issues using **ReactJS** and **TypeScript.**

TECHNICAL STACK

FRONTEND

React.js | Next.js | Vue 3 | Nuxt 3 | Tailwind | TypeScript
